

## Program Director

---

Ibeos is looking for highly motivated individuals to join our team as we continue to provide advanced electronics and subsystems to cutting edge satellite and rocket programs. Ibeos is growing fast, and we have excellent opportunities for professional growth. Our projects push the performance envelope for both power and digital applications in space.

## Your Job

---

The role of Program Director is a new position at Ibeos. Ibeos has multiple programs with an array of customers: from commercial development programs to product builds for the US Government. Job responsibilities will include managing current projects and customers, with the goal of on-time and on-budget delivery. The Program Director will be asked to provide guidance on standardization of internal processes; management and planning for design upgrades to current products; and marketing and business development strategy. This position has significant autonomy and is expected to provide recommendations on company R&D, strategic direction, and capital expenditures.

## Desired Skills and Experience

---

Ibeos is interested in individuals with skills in one or more of the following areas:

- Satellite or launch vehicle design, manufacture, business development, or integration and test; or electronics components design, manufacture, business development, or test for high-reliability applications. Experience in multiple areas is a plus
- Experience managing budgets and schedules for development and/or production programs
- Experience managing a team of people
- Knowledge and/or experience with 5S
- Experience designing products for operation in space or radiation environments is a plus

>10 years of experience in the space or high-reliability industry, with experience in manufacture and test, and management is a plus.

U.S. Citizen or permanent residence required

## Why Ibeos?

---

Ibeos, formerly Cubic Aerospace, was founded in 2013 with the goal of developing high-reliability spacecraft electronics at affordable costs and on aggressive schedules. Ibeos' hiring philosophy, which is key to delivering on this goal, is to pay above market for exceptional engineering talent. As a member of our team, you will have the opportunity to work with an efficient, talented team on exciting and challenging design projects. We pride ourselves in a relaxed, open, and creative work environment. Our location in the DC metro area is conveniently located at the Reston Town Center Metro station opening in late 2019, with an easy commute to excellent communities for both families and young professionals.

## How to Apply
